

## Reading Behaviour Sheets for Parents

Reading is an essential life skill and should be a life-long pleasure. It is so much more than decoding text and we aim to ensure our pupils have all the skills and reading behaviours they need at each stage of their reading, linked to the National Curriculum and national expectations.

These sheets are adapted from the guided reading sheets we use in school and have been carefully linked to the skills and reading behaviours they need, at each book band.

This booklet, which will be issued annually, contains the sheets for the book bands which are most common in your child's class. **Please keep this booklet for use at home, using it every time you read together as a prompt ie asking questions, finding types of words, getting your child to look more at the text.**

**ENJOY!**
