

Topic Fact and Vocabulary Sheet - Britain from Above

Geography	A science that deals with the earth's surface.
Country	A country is a big place where lots of people live together under the same rules and have the same leader.
City	A city is a large place where many people live and work together. It has lots of buildings, roads, schools, shops, and parks.
River	A river is a long, flowing body of water that moves across the land. It usually starts in the mountains and travels all the way to the sea or a lake
Sea	A sea is a large body of salty water that is smaller than an ocean and is often partly surrounded by land. For example, the Mediterranean Sea and the Caribbean Sea are seas.
Aerial	Aerial means something that happens in the air or is seen from the air. For example, when you see pictures taken from an airplane or a drone flying high above the ground, those are called aerial photos. It's like a bird's-eye view of everything below.
Landscape	A landscape is what you see when you look at a large area of land. It includes everything in the view, like hills, trees, rivers, buildings, and fields. It's like a big picture of nature or a place, such as a beautiful countryside, a desert, or a city skyline.
